PROFESSIONAL SUMMARY

Computer Systems Analyst supporting **mission-critical operations in classified DoD environments**, with an active Secret clearance and hands-on experience in secure data workflows, system integrity, and aviation debrief processes. **CompTIA CySA+, Security+, and A+** certified. A proven builder who architected and shipped a **live zero-knowledge identity platform**. Known for accuracy, reliability, and keeping secure systems stable under pressure — and for advancing through three distinct careers, each built from the ground up.

CORE QUALIFICATIONS

Active Secret Security Clearance • Vault Environment Experience • Classified Data Handling & Transfer • Mission Systems & Operational Support • System Diagnostics & Troubleshooting • Patch Management & Security Hardening • Data Integrity & Validation • DoD Security & Compliance Standards • TEMPEST / Emission Security • Zero-Knowledge Proofs & Identity Systems • **ICADS · PCDS · ANGEL · SolarWinds**

PROFESSIONAL EXPERIENCE

Computer Systems Analyst

2022 – Present

TDX Combat Services — Newport News, VA

- Manage secure transfer and validation of **classified mission data** within secure environments, ensuring data integrity and compliance with DoD requirements.
- Support mission systems used for **pilot training and debrief workflows** by preparing and verifying operational data outputs.
- Troubleshoot system and data-flow issues to maintain operational continuity across multiple secure platforms.
- Perform routine **patching, system updates, and security hardening** to reduce vulnerabilities and maintain compliance.
- Monitor system health and validate data accuracy using **ICADS, PCDS, ANGEL, and SolarWinds**.
- Contributed to **TEMPEST package development** and facility transition efforts, supporting emission-security standards.
- Coordinate radio communications and manage assigned frequencies during live flight operations.

Owner / Operator

2013 – 2023

Virginia Natural Cleaning Solutions — Hampton, VA (operated concurrently with full-time leasing roles)

- Built and operated a service-based business from the ground up while working full-time, managing all operations, client acquisition, and financials independently.
- Secured **SWaM certification and HUD contracts** for inspection and compliance-focused services.
- Held recurring contracts with apartment complexes across Newport News; scaled to consistent revenue through customer retention and operational efficiency.

Lead Leasing Consultant

2017 – 2022

SL Nusbaum Realty Co. — Newport News, VA

- Managed leasing operations, applications, **compliance documentation**, and resident onboarding.
- **Increased occupancy from 87% to 96% within two months** through targeted leasing strategies.
- Ranked **#1 leasing agent for five consecutive months** on performance metrics; maintained property operations independently during ownership transition.

Leasing Consultant

2013 – 2016

Seminole Trail Management LLC — Newport News, VA

- Managed leasing processes, financial records, collections, and compliance documentation.

TECHNICAL PROJECT

Hash Humanity — World ID-Verified Social Platform hashhumanity.world

- Designed and built a production social platform on **React and Firebase** with **World ID zero-knowledge identity verification**, supporting both browser and native (World App mini app) authentication flows.

- Implemented secure **SIWE (Sign-In with Ethereum)** authentication using Firebase Cloud Functions to handle cryptographic signature verification, nonce management, and custom token issuance.
- Architected multi-path Firebase Realtime Database **security rules with role-based access control**, banned-user enforcement, and automated identity unification across multiple authentication providers.
- Integrated WLD token payments via WalletConnect, including transaction signing, environment detection, and end-to-end payment confirmation workflows.

CERTIFICATIONS & CLEARANCE

Active Secret Security Clearance — U.S. DoD

CompTIA Security+ — Core Security & Risk

CompTIA CySA+ — Threat Detection & Response

CompTIA A+ — Systems & Networking
